Objective

As an enthusiastic and evolving Front-end Developer , I am actively seeking opportunities to contribute my skills and creatively to a collaborative development team. I am particularly interested in joining a team where i can leverage my current project experience to craft intuitive and visually appealing user interfaces, while continuously expanding my skill set in the field of Front-end development with a strong foundation in REACT and JAVASCRIPT.

Projects

Youtube-Clone (ReactJs)

• Developed a responsive **YouTube clone** using React.js, aimed at replicating the core functionalities of the original platform and Designed an intuitive user interface with responsive layouts for seamless viewing across devices.

• Designed and implemented a user-friendly interface with features such as video playback, search functionality, and suggested videos sidebar.

• Utilized React Router for seamless navigation between pages, enhancing user experience and engagement.

News-Mag (Bootstrap, ReactJs)

• Developed a responsive news website titled '**News**-**Mag** ', integrating an API for fetching international news data.

• Implemented dynamic rendering of news content onto Bootstrap cards for optimal user experience.

• Utilized seven distinct headings sourced from the API to organize and present news categories effectively.
